

# helper news

**'I have loved you with an everlasting love. I have drawn you with unfailing kindness.' Jer 31:3**

## Things come in threes!

Here are Ben, Ishimwe and Avida when they were with us at Sunshine. As Our Lord through Jeremiah points out, 'drawing' takes time and investment - intellectually, emotionally, spiritually and financially. But what great fruit Our Good Lord grows through it!

Avida is finally on holiday from Sokoine University and is back with us as a Classroom Asst for a few weeks.

## Ishimwe says,

**'I always appreciate and remember this time (at Sunshine) because even myself I was like these youngs...'**

I am pleased to announce that having been offered places at 4 universities on August 28th Ishimwe has accepted a place at The Institute of Accountancy in Arusha and God willing will end up with a Bachelor's Degree. Glory to God. Ishimwe loves The Lord and it has been fun being in touch with her on WhasApp during this process (Andy)

Ben is now training in Dar to be a JCB driver. His health is not great, so prayers welcome.

### From Edisa (in yellow)

Edisa is finally taking a holiday. We have always employed the bare minimum of staff to run helper, but it has meant postponed annual leave particularly for Edisa. Now after some years, she has finally succeeded and is now on holiday! Edisa has just visited her young sister in a small village north of Kigoma and is now busy preparing her 'shamba' for replanting. She says:

'Thank you very much for your prayers for helper in Tanzania and all contributions. God bless you all in the name of Jesus.'

### From Elisia to all supporters:

I'm very grateful to you for your contributions and prayers. You have been kind to helper, for helping helper's vision move forward. I hope God will honor your work of supporting us. Your labour is not in vain.

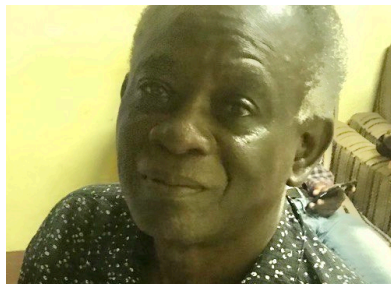

May God bless you as you pray for increasing hunger for reading God's word for all helper staff and for the 25 students and Zuwena who said yes to Jesus to grow spiritually and that their new faith in Jesus may not fail.

Phillipians 1:61 Corinthians 15:58

**Aggie says:** Our lives are blessed with some of the most amazing people like you, thanks for being a part of our journey

♥ I pray for you and your families.

This man is one of several we have sent to Matyazo Mission Hospital for a hernia repair.

### Join Friends of helper support team?

Friends of helper (Foh) the supporting charity in UK is seeking new faces 😊 to bring their expertise and offer their experience. In Kigoma, Tanzania, helper itself grows apace and as in any family, children become more expensive as they progress higher in their studies and we are finding medical costs are increasing, too. helper's vision is to enable all the children The Lord brings to us to escape poverty by climbing as far up the academic ladder as they are able. New Foh volunteers work will involve coming together under the guidance of Rev Martyn Saunders our new Chair to develop the communicating and presentation of our work more widely than we have been able to up to now. With the advent of Zoom and emails etc. this means it doesn't matter where you live. You could help from home. Our new volunteers will attract helpers of their own, and guided by Martyn will co-ordinate new initiatives to make this development a success. If you think you might have skills that could benefit Foh, please consider becoming a part-time volunteer prayerfully and urgently. Ideally we would like to receive our first new volunteers before Christmas. Thankyou for reading this far.

God bless you

## Post O-Level students.

Here are our post 'O' Level students. The two on the left are at Teacher Training College, the others are in 2nd Year 6th Form studying a mix of A Levels. Please pray that as they only see us in the holidays, these days, they will carry and develop their faith in Jesus in their schools and colleges.

Some of you may remember Vivi on the right (Edisa's daughter) who was the one who was issued a place in a High School in an disused refugee camp last year. Thankfully she has since managed to get a transfer to a better school. She is one of the best ones academically in her new school, so it looks like her dream of becoming a doctor is back on track.

### helper not visited your church this year?

I would love to come and share with you and expect to be here until end of November, God willing.

So if your church is able to receive me, please get in touch

If not, then if you copy and paste this link into your Web Browser you will be able see the talk I gave to Pip&Jims

<https://www.youtube.com/live/HDYVHC2qPTc?feature=share>

P.S. This issue is a bit light on the medical side, so I'll rebalance in the next one 🙏

Judith Above right:> To get to her High School has had to go with her mum 2 days by train and 2 buses to the South East of Tz not far from Mozambique and 'quite near' where Ishimwe also had to go to for her 'A' Levels. I flew there years ago to a German mission hospital. It's far away!

Andy says it was great to be invited to New Wine in Detling. Perhaps you were there? He went on the Saturday and enjoyed the teaching and big-tent worship, particularly. Many thanks, to Martyn.
